## Associated Press Telegram
HAVAS' AGENCY

London 23d
*Morning Post* says that the diplomatic relations between Germany and Russia are extremely cool at present, in consequence of Turkey sending an Envoy to Berlin to negotiate an alliance with Germany.
St. Petersburg, 24th
The semi-official *Journal*, denies the news of the *Morning Post*, adding that Russia and Germany were never better friends and are likely to continue so.

## CHRISTMAS!
This is the twenty second time that we have the pleasure of wishing our readers, colleagues and adopted country a Merry Christmas, and we have never felt the wish more sincerely, although merriment may be only attainable in the abstract when the thermometer marks 90 in the shade. It is, however, most satisfactory to note that the English and German idea of Christmas is yearly making way in this Spanish land. When we wrote our first Christmas article, nearly a quarter of a century ago, the celebration of the great festival of Christianity was, from a social point of view, confined exclusively to the small English and German communities then here; but what a change we witness now. The Frenchman has stamped his alluring manners and customs on everything in this city, but as his ideal of 'Noel' is not very high, he gets into the back ground once a year, at this time. The Italian has built up this country, but seems to have left his 'Bambino' at home behind him, so the Britisher and the Teuton have the field to themselves, and their Christmas—with its trees, and its charities, fun devised exclusively for the children, its presents, plum-pudding and general good fellowship and feeling—is now that adopted in Buenos Aires. Argentines have very naturally taken to it kindly, as their remote Spanish ancestors, in the splendid days of Ferdinand and Isabella, celebrated the 'Navidad', religiously and socially, in a way no other nation could excel. Christmas to-day in old Spain is rather a tame affair.

We can see no more promising social sign for the country than this adoption of the Christmas of Northern Europe: It points perhaps to a purer and less artificial state of society at some future day; but there is much to be done yet to [illegible] their true standard of Christ[illegible] have already Christmas [illegible] the children, Bazaars for charity, tertulias etc; but if we could get rid of 50 per cent of the conventionality and society priggism that as yet mark our Christmas entertainments, it would be all the better. Our children grow too fast in mind, it not in body. Our professional beauties of 13 and men of 15 would be horrified if we were to suggest to them that a good romp under a mistletoe bough would do them all the good in the world. Of course, middle-aged men and women of 20 and 18 would consider the idea still more 'shoking;' but the mistletoe will come. Our youth of both sexes are far too much 'stuck up' for their years. There are too many 'grandes dames' and aesthetic 'Grosvenor Gallery young men" amongst them, to whom a ruffled flounce or a crease in their shirt is a source of unutterable anguish. A general 'unbending' of old and young, 'a la Inglesa,' in these festive times would help to put healthier ideas into our 'golden youth,' and we hope to see an effort made in this direction.

In a material point of view never have the people of this country had better reason to be merry than on this Christmas Day of 1881. The year has proved a splendid one for all classes. The wool men grumble at the fall in gold and lower prices, but they have had a most propitious winter, a large increase, and are making money as fast as ever. The business classes have no reason to complain; in fact the year has been a good one in all branches. The wheat harvest is the most bountiful Providence has ever bestowed on the country. Immigration is reviving so rapidly that even the most sincere and sanguine friends of the country are agreeably surprised, and Octavian peace and order reign in all parts of the nation. Were it not that the repulsive figure of the Pampa Indian, with his lance and bloody knife, must be added to the picture, there would be no alloy in the Christmas rejoicings of the people. We trust, that when 1882 has run its course, we may have as good cause to congratulate all and be able in as full confidence and sincerity as now, to wish them a Merry Christmas and a Happy New Year.

### LONDON LETTER.
(*From our Own Correspondent*)
A NOVEMBER DAY'S NEWS.
November 18th.
According to Mother Shipton, or to some prophecy, the world was to come to an end to-day, or at least commence the process of dissolution. The fish were to die first, then the birds, and so on until about the end of the month, when we of humanity were to begin to go off. I cannot say I see any symptom of change. It was a true November morning, mild and foggy, the sun sometimes looking red, sometimes orange, and sometimes like a diseased snow-ball. There is no alteration that I know of in the price of fresh fish, and the news of the day is painfully stale. We have a distressing double murder of little children and suicide of the mother and murderess at Hornsey; a Channel steamer, the Solway, on fire with loss of life; and also one of the most remarkable and adroit robberies on record, a robbery of the post-bags at Hatton-Garden Post-Office, the bags containing registered letters enclosing diamonds valued this morning

TUDOR, equal in quality and flavour to Teas sold at $30 m|c and $40 m|c lb. Parties who have once tried it take no other. SOLD EVERYWHERE

at £80,000. A noon the value was stated to be £25,000 or £30,000. To-night it is put at £10,000. Then, to be quite in keeping with the old and still going world, there are two jolly good 'mills'—both prize-fights—one between Arnold and Plant at Coventry, which lasted 50 minutes, one of the combatants, John Plant, being killed; another took place at Richmond, between Blenkinhorn and Lovell, which lasted for nine rounds, the men punishing each other viciously, until Lovell refused to 'toe the the line.' There is a capital libel case, in an action brought against a Mrs. Esquelant, by the Rev. Mr. Bull, vicar of North Woolwich. The lady gave most circumstantial details in regard to Mr. Bull's visits during the absence of her husband and in regard to the reverend gentleman's little attentions that seemed to be very much of the ordinary pattern in such cases. However, the facts were denied when exposed by the lady's husband. The Bishop insisted on Mr. Bull clearing his character, so he brought an action which was tried at the Court of Queen's Bench before Lord Coleridge, and the parson got his 40s. damages, to include costs and the thorough whitewashing of his reputation. Finally, we have the first great trial of strength between Science and pseudo-Sentiment or the medical profession and a lot of tabbies who call themselves the Anti-Vivisection Society. The man attacked in this case was no less a person than Protessor Ferrier, of King's College, whose experiments in regard to the localisation of cerebral functions have suggested the most striking and to humanity the most useful discoveries of the day in medical science. He it is who above every one gives the lie to the statement I have heard myself, made by the hired spouters of the Anti-Vivisection Society, that no practical benefit has ever been derived from vivisection. The present most advanced as well as the most humane treatment in lunatic asylums has been suggested by Ferrier's experiments. The case in question is a relic of the late International Medical Conference, where Mr. Ferrier had exhibited two monkeys, in one of which he had six months ago produced definite motor paralysis and in the other permanent deafness. The animals are still living, with their cuts or wounds healed and in charge of Dr. Yeo, who took out a particular license, which Professor Ferrier had neglected to do; but Dr. Yeo permits him to see the animals. The magistrate, Mr. Ingham, refused to grant a summons, and offered to give the prosecutors a case to take to court if they chose as it was an important question. The offer was not accepted and the summons was dismissed.

When I say that this November day's programme closes characteristically with an action for 'breach of promise,' need I remind you that the world is nothing like coming to an end, and is in fact still an infant.

Some rather startling news has just come from Canada, curiously following Lord Lorne, who has just joined the Princess Louise at Birkenhead. The Ottowa *Herald* declares, on the authority of a member of the Dominion Parliament, that a move is to be made in the approaching session for the election of a Canadian President or Chief Magistrate. Whilst the Canadians are thus preparing for a declaration of independence, the New York *Tribune*, with great candour, is discussing the prospect of annexation. There is nothing new in all this. It is quite on the cards and the best thing that could happen. In the case of a war not only with the United States but with any European naval power, we have not the means of protecting India and Egypt, our own coasts and our colonies as well. Canada and Australia would have to protect themselves, so they might as well do so under their own flag as ours. New Zealand perhaps and the Cape would require assistance. The glory and advantage for all time to England is in having founded and maintaiaed new empires or republics of English-speaking people. From a military point of view, after a certain period, they are a source of weakness, except as allies.

## CONFESSION BY LEFROY.

London, Nov. 28th

The Central News states that Lefroy made startling disclosures on Saturday. Early that morning he sent for the chaplain and made a full confession, not only as to the murder of Mr Gold, but also as to the murder of Lieutenant Roper, who, it will be remembered, was found dead outside his quarters in Chatham Barracks in February last. He stated, moreover, that he shot Lieutenant Roper in consequence of a quarrel they had as to Miss Violet Cameron. Lefroy's relations have already affirmed that one of his hallucinations was that he was married to Miss Cameron, whose portrait he used to carry about with him, and he now says he shot Lieutenant Roper because the latter said something slightingly of her. There has been a suspicion for some time amongst Lefroy's friends that Mr Gold was not his only victim for several reasons, amongst which are the finding by the Claytons of blood-stained clothes in Lefroy's room, and his extraordinary behaviour on more than one occasion. The clothes, however, have been burnt. The declaration that he murdered Lieutenant Roper is borne out by the fact that on the day after Lieutenant Roper's dead body was found Lefroy suddenly appeared at his sister's house at Southend and remained there for some days. On receiving his startling statement Mr Cole, the chaplain, immediately sent to London to lay it before the Home Secretary, but Sir W. Harcourt had left for Derby, but the Permanent Secretary appeared inclined to attach much importance to it. Every effort will be made by Lefroy's relatives and Mr Dutton, the solicitor, to obtain a reprieve on the ground of homicidal insanity. The Claytons say they noticed at the time of the murder that Lefroy was continually travelling up and down the Chatham and Dover Railway. When Mrs Brickwood saw her brother on Saturday afternoon he re-affirmed all he said to the Chaplain, and said he had given the Chaplain a stagger that morning. He also said he did not think he would be hanged, but wondered whether they would put him in a lunatic asylum. He further remarked that sometimes he felt like two different people. His sister asked him why he had not made a full confession of all this before, and Lefroy replied that he had thought there was some hope for him, and he did not care, therefore, to make any one his confidant; but now that he was on the point of execution there was no use keeping the matter a secret any longer. Every effort will be made to lay all these facts before the Home Secretary.

## EDITOR'S TABLE.

We wish our readers and sub—No, subscribers first, readers, colleagues, friends and enemies the merriest of Merry Christmases, and a shower of rain to cool the air, as no man could possibly be merry while the awful heat of yesterday lasts. P.S.—The shower came after we had written this.

The Villarino, from Bahia Blanca, entered the Boca yesterday, and about 7 p.m. we had the pleasure of wishing our "redactor en gefe" a merry Christmas. He had as much "copy" in his pocket for this issue alone as would keep us all out of bed till long past 1 a.m., but we finally persuaded him to keep it till Tuesday. Things in the South are far in advance of what people here imagine.

The religious ceremonies to day are on the most solemn scale in all the churches. Midnight Mass was celebrated in every parish. At 9½ a.m. the grand Pontifical High Mass takes place at the Cathedral. At San Roque there is Mass at the usual hour, St John's Anglican Church has been most beautifully decorated for the great festival, and there will be a full choral service. At the Flores Chapel Bishop Stirling preaches at morning service.

The post did not bring us yesterday, as we expected, an account of the doings at the Elevator inauguration in Rosario on Thursday last, but it will come to-morrow, no doubt.

The papers by the Mondego bring the news that Lefroy confessed before he was hanged. Not only did he murder poor Mr Gold, but also Lieutenant Roper, from jealous causes.

The news of another invasion of Indians at Patagones is not calculated to improve people's appetite for plum-pudding and mince pie. The savages dashed in in 2 bodies of 25 men each, and made off with all the troopers' horses at Fort Roca; ten soldiers pursued them, however, killed five of them, retook the horses, and drove the raiders across the river, several of them becoming food for the fishes. A short time after, a numerous body of Indians appeared in the distance to cover the retreat of those who got across the river. The officers in command of the troops are of opinion that this raid is a very serious one in large force. As yet, it appears, the measures taken by the War Office have not borne much fruit.

We have been favoured with an account of the distribution of prizes last week at the Holy Cross College of the Passionist Fathers, which is under Dr Grace's able direction. We are reluctantly forced to keep it for Tuesday's issue, owing to want of space to-day.

We have an agreeable bit of news for our fair readers—nothing less than the formation of a Ladies' Archery Club, at Flores 'loveliest village of the plain'. Mrs Barton de Torres has the matter in hand, and has imported all the 'materiel de guerre' from England. Ladies are invited to join the Club, and we feel pretty sure they will cheerfully accept. A good figure never looks so well as when arrayed in archery garb; and lookers on of the rough sex generally leave the grounds stuck all over with Cupid's arrows.

We anticipate that this Archery Club will prove a stupendous success. The programme will be published at an early date.

The 'official' upshot of the 'sumario' about the corned-beef business on board the Cabo de Hornos is—two midshipmen released, one still in prison, and the beef tip-top; only the mustard was bad. Oh!!! In spite of the report of the Committee named by President Roca himself.

The new Municipal Expropriation Law was sent to Government yesterday and will be laid before Congress. It is time to call a halt in sending new Bills to Congress this year. How can they possibly be discussed at this time of the session?

We are sorry to hear that typhoid fever has assumed an epidemic form in Belgrano, and the *Revista Medica* declares that the disease is almost epidemic in the city, as also scarlatina and small pox. Our medical colleague has a very poor opinion of the sanitary condition of the city, and we fear it is right.

The Lord Mayor is getting everything ready to set the Lottery going. Our esteemed colleague M. Walls is to decide on the system of drawing to be adopted.

It is officially announced that H. R. H. Prince Leopold is about to marry the Princess Helen of Waldeck, sister of the Queen of Holland and grand-daughter of the Queen of Sweden.

Another Indian raid on the estancia of Drs Day and Zapata at Malargues in the South is announced. They took a number of horses and made an attack on the estancia house, but were repulsed by the capataz and peons.

The river steamer Jupiter ran aground at the Corralitos yesterday, and only leaves this morning for Montevideo.

President Roca, Dr. Romero, National Finance Minister, and other gentelmen paid a visit to the Lanus Deposito on Friday and found the building in the best order. The reports as to its being in a bad state were pure moonshine.

The Mondego's passengers landed yesterday about 3 o'clock. Captain Pauli, H. M. Consul is stopping at the Provence Hotel, Dean Dillon is stopping at the La Paz. We are pleased to see him in the best of health after his eight months sojourn in the Old World. Messrs. Drysdale Mrs. Gibson and family came ashore in a special steamer. We cordially welcome all the travellers, who have arrived just in the nick of time for Christmrs. By the way they would have been ashore fully two hours earlier, but for the pottering way in which the 'visita' business is managed.

We had the pleasure of increasing our subscription list in Alexandria Egypt, yesterday. It is a promising sign to see the Cops anxious for River Plate news.

The new 'Hospital Buenos Aires' will be inaugurated this morning at 10 o'clock. The Municipality has invited the Presidknt of the Republic.

The subscription for Dr. Irigoyen's album now exceeds $81,000 m|c.

The greatest news in town yesterday was that all the space in the main building of the Exhibition is already given away, and annexes are to be built to accommodate future comers. This puts the brand of success on the Exhibition. Nothing but 'force majeure' can stop it now.

Our theatrical reporter informs us that next Tuesday the Italian Dramatic Company of Madame Tessero will perform a piece written by Dn. Rafael Frageiro, a young author of Montevideo, scarcely out of his teens, all in Italian verse, the extraordinary circumstance being that the young gentleman has never visited Italy. The fact of Madame Tessero condescending to play this tragedy is the best guarantee of its being very good.

Number 7,779 won the 10,000 patacons in the San Luis Lottery, drawn on Thursday. The second prize of 500 patacons was won by number 6,802.

An unfeeling subscriber laughed heartily as he described to us a 'wheel-off' accident on Friday in Calle Corrientes. The vehicle was a broker's brougham: the coachman flew into the air like a bird and came down, after turning heels over head twice, on the crown of his tin, no leather, hat: the horse bolted, and the brougham was finally all but demolished by coming in contact with a cart. The coachman was none the worse for the 'flyer,' although his hat was. We believe the broker was not in the carriage at the time.

Frangipani is decidedly preferable to the smells that are now so strong all over the city after sunset. Where they come from may be answered in one word—everywhere; from the cloacas, the sumpts, the cesspools, from above, below and all round. It is a mercy that the City Improvements are to be resumed the moment the summer is over.

We cut the following interesting scrap about earthquakes from a recent exchange:—

"Dr. K. von Fritsch of Halle says that the cause of earthquakes does not exist further down from the surface of the earth than 10 or 14 miles. After citing a number of instances to show how far the shock of a steam hammer or that produced by an explosive may be felt, he appears convinced that rather feeble forces produce earthquakes which make themselves very sensibly apparent at great distances from the active centre. He says that earthquakes might be and must be produced by the increase and decrease of volume of rocks under the influence of physical and chemical forces, and by concussion, by the opening of crevices in rocks and by the subsidence of masses of rock due to these agencies. Many schists are subject to extension stress, and when crevices occur the schists must enter into oscillations like those produced in tuning-plates."

## ON 'CHANGE.

Dec. 24th

| Patacons | 25.— |
| Cedulas A | 100 |
| Do E | 85½ |
| National Bank Shares | 120½ |
| National Bonds | 88 |

This was a dull day on 'Change, owing to the excessive heat, and it being Christmas eve. In the gold market a few operations were made for the end of the month at 25.05 and 25. The approaching chances in this market in the New Year were discussed, and more especially the question of the 'conformes' of the various banks in this city; in reference to the abolition of bank privileges it was thought by some that the privileges of the National Bank cease ipso facto with those of the Provincial Bank, but this we understand will not take place and only referred to the status of the National Bank, as to its presence in the Province of B. Aires. With the new year the privileges of the National Bank in this city are the same as those of this establishment in the interior of the Republic. In fact, events seem to point to the great National Bank of the Constitution, and nobody knows it as such it will be mainly a Government establishment or an of shareholders as at present. At all events its position in the market from the 1st of next January will be widely different from the present indifferent attitude it maintains. It is also thought that on the 1st the bill of 450,000 pats will be passed, and that in the Cabinet it is a question of 'se soumettre' or 'se demettre'.

There was little done in Cedulas, and we remark the gradual and steady rise of Series E; to-day's prices in this series show an improvement on last quotations, and the scrip seems bound for 90; at this figure it will maintain a proportionate ratio with Serie A that is at par, an 8 o/o interest paying stock. There are as usual plenty of sellers at par of Series A.

The National Bank Shares maintained last night's firm tendency in spite of some rumours spread to bear the stock, but which were unfounded. The business for cash was insignificant, and 120 done at from 119½ to 120½; the official hour closed firm for cash at the latter rate. Heavy amounts were sold for end of month at 119½ to 20½. During these latter days many brokers have been liquidating and 'cleaning', and the differences on the 31st promise to be small. The transactions for the end of January were larger than the figures on the board, and show a rise to 122½; the market has got rid of its former indefinite aspect and there is more confidence in the tenor of same for the present.

In National Bonds a small sale is reported at 88, the former quotation of the stock. In other National stocks nothing was done; there is always a demand for Treasury Bills, and the few holders of the stock in the market have raised their demands.

Exchange this morning looked a little firmer; very little was done, and rates may be considered nominal.

The sales at the ring were—

The prospectus of the new Ostrich Farming Company was out to-day. Mr. Kruls, who is the organizer of this new company, is laying the foundations of one of the most successful enterprises in the R. Plate; another ostrichfarm in Merlo has no doubt been started since sometime, but the farm in question, spite of its great prosperity, is yet in its infancy, and the company which is being formed out of it will immensly develop the industry. The farm under Mr. Beaumont has been a success from the beginning and has yielded handsome profits to the owners, through good and competent management, and we are glad to see that the services of the manager will be continued. It is needless to reproduce all the figures of the prospectus, as most of our readers will have seen same, and the company will be formed in this city. The best recommendation of this new enterprise is the great favor with which it is greeted on the Bolsa, and we augur a complete success to Mr Kruls in the formation of the company, since the best men in the market are buying up the shares. The capital of the new company is to consist of 750 shares of 100 pats, 320 shares are taken up by the present owners of the farm. The expenses of the establishment are fixed at 18,000 pats, and the returns at 22,500 pats, equal to a return of 30 o/o clear on 75,000 pats, the capital of the proposed company.

Some 5,000 Nat. Bonds of 1876 sold outside ring to-day at 85.

In the Villarino are expected the officers and sailors that left the Patagonia and landed at Monte Hermoso.

The Ville de San Nicolas arrived to-day and goes up the river to-morrow.

The San Martin is expected on Monday, cargo has been already engaged for her at 35 francs and 10 p. cent for Havre.

The Horrox left to-day full.

The Rubens leaves to-morrow with a full cargo from this port and the rivers.

A large amount of gold was offered at afterhours on the Bolsa at 25.02 and even 25.01 for end of month. No buyers could be found and the cheques had to be taken to the Provincial Bank.

Exchange rates are as follows—
50d to 50 1/3 on London
5.29 on France
5.2⅝ Paris
5.30 Antwerp

There are few takers and little doing—

The Horrox takes the following cargo:—
1900 bales
69 casks tallow.

The Rubens takes:—
1,100 dry hides
2,084 bales wool
51 bales sheepskins.
42,000 pats
7,200 £ sterling.

Mr R. O'Grady was welcomed on 'Change to-day; he reports the camps in the South in splendid condition.

1,000 pipes of tallow from Concordia reported sold, at 14½.

500 pipes tallow in Concepcion sold at same price.

M. C. S. Roberts was welcomed on 'Change

The present lighterage rates are so high, that many of the vessels in the roads with cargoes of coal and lumber will be obliged to enter the Boca.

A Chinese cargo of coal from Winetung (?) was sold to day at $7.9 inside.

Some property in Lomas, belonging to a Liverpool testamentaria, will soon be put up for auction.

The three following cargoes of pitch pine have been sold as from 42½ to 43. Roth Topping, the Wm McClellan and the Alaska.

At afterhours some 1,000 Shares were sold at 120½, and the market closed buyers at that price and firm.

The arrivals in the Once this morning amounted to some 23,000 arr. Prices are unchanged but it is remarked that the generality of the wools now coming are rather inferior, and therefore choice lots in more demand, whilst others are neglected. The Once Station has now only about 20,000 arrobas.

In our article on the Catalinas Mole yesterday we stated that same was worth £250,000; the remark, we beg to state, refer to the mole alone, as the deposits are worth certainly $200,000 more. Not long ago through Mr Smithers a company was to be launched in London to take both mole and deposits for £450,000. To judge by the yearly returns of the business the concern is worth more. We hear on the very best authority that President Roca and Minister Romero will visit the Catalinas Mole in person next week, that they may judge for themselves of the importance of same. They may have had occasion, when leaving for the Admiral Brown in November, to admire the new shed that has been lately built, 30 metres wide by 86 metres long; the company now intend lengthening the shed by 65 more metres. At the same time there is a move to construct a large granary, that will be a great boon to the market, and it is very much in want of one.

We take the following interesting figures from Mr H Altgelt's *Weekly Review of Agricultural Produce*—

"Arrivals of the week—

| | |
|---|---|
| Wheat | 300,030 kilos |
| Flour | 147,827 |
| Maize | 124,655 |
| Flax | 5,640 |
| Hay | 240 bales |

Besides there have arrived 1,407 bags of wheat, and 1,620 bags of maize, the weight of which has not yet been determined.

"Exports—

| | |
|---|---|
| Flour | 138,000 kilos. |
| Maize | 63,000 |

have been despatched to Rio.

| | |

The new Custom House law was much commented on on 'Change. Several parties remarked that since the Government had decreed an export duty of 75 centavos on every cow exported, it was high time to put a stop to provincial export duties.

The Austrian barque Amalia is aground in port of Colonia, she carries a general cargo.

The following list of wrecks, taken from a London paper of Nov. 28th, will be interesting; the figures are really startling:—

"There were ninety-one British and foreign wrecks, of which sixty-two were British, six being British steamers and 4 foreign steamers, reported during the past week, making a total of 1775 for the present year, or an increase of 305 as compared with the corresponding period of last year. The increase on the week was thirty-six. The approximate value of property lost was £9,100,000, including British £6,000,000. Fifty-nine vessels, mostly English and Scotch, were lost off the coasts of the United Kingdom, including three by collision, 28 alone being wrecked off Scotland (Stornoway, Lewis, and the neighbourhood); twelve were lost off the Norwegian, Swedish, and Danish coasts. The lives lost and missing amounted to 140. Six ships were abandoned at sea. The amount of coals lost was 5,500 tons; oats, wheat, barley, and rice, 3,700 tons; iron, ore, phosphate, and general cargoes, 4,600 tons."

The new Marking Law will create quite a revolution in the camp. From door-keeper to the Minister, one and all are to study the new system. The schoolmasters in the province will have another item more to puzzle their brains with. The publication of a Deciphering Dictionary will be a necessity, and every farmer will have to get one.

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date Nov. 18th, 1881, is important:—

Wool—

As could be inferred from the steady demand preceding the opening of our public sales on 8th inst. and which kept on to the very last, the latter even took place amidst general animation. An unusually large number of buyers had assembled who operated with great spirit, prices paid being from 5 to 10 centimes higher than those established during our July auction or about equal to those previously paid by private contract. Owners generally proved themselves willing to meet the market in consequence whereof withdrawals have only taken place to a very limited extent, indeed the quantity withdrawn is proportionally smaller than has been the case since many years. During the two last sittings prices were a little irregular and the tendency perhaps not quite as strikingly in sellers' favour, as was the case in the beginning of our auctions. Still there is no quotable change to report and the general impression left by these public sales may be called favourable.

There have been in all

| Offered. | | Sold. |

| 12,713 bales | Buenos Aires | 11,451 bales. |
| 4,806 | Montevideo | 4,472 |

| 758 | Cape | 497 |
| 731 | Miscellaneous | 454 |
| 21,303 bales. | | 19,072 bales. |

which leaves us with the following statistical position:—

| | Bales. | |
|---|---|---|
| Stock on 3rd Nov. | | 22,454 |
| Arrivals from Buenos Aires | 1,685 | |
| Do Montevideo | 153 | |
| Do Rivers | 78 | 1,916 |
| Sales by private account | 727 | 24,370 |
| Public sales | 16,046 | |
| Transit | 4,560 | 21,333 |
| Stock to-day | | 3,037 |

Comparing prices as they now rule with those current at our last public auctions, we find B. Aires wool to have advanced from 5 to 10 centimes, and Montevideo which was neglected during the preceding series even from 10 to 15 centimes. Lambs sold well at an advance of from 5 to 10 centimes particularly inferior and hurry descriptions.

We may now quote an average B. Aires primera rendering 38 o/o frl.55/60 which is not a high price to begin the new season with, and since the article's statistical position has become favourable through the large sales which have now taken place and trade appears remunerative, we may expect that present prices will be fully maintained during the near future.

Let us also mention that a few samples of the new clip were offered during these sales and as such realised high prices, but the quantities are too small thereby to form an opinion as regards the new product in general.

Sheepskins—

The market has ruled quiet and without quotable change, the only business in progress being of a retail character.

Sales, 11 bales.
Stock, 283 bales.
Hides—

There has been no increase in the volume of business reported, the market remaining in a dull and rather unsatisfactory condition. Holders generally are disposed to meet buyers on fair terms and in this way a regular business has been transacted at again slightly lower rates, the decline now also extending to good summerhides which up to now had held their own. Thus the heavies out of the cargo per Ocean Spray, 5525 Liebig 25|32 kil. were sold at fr.75.

From England a dull market is reported and no sales of moment have taken place.

To arrive we may mention the following transactions: Kronprinz von Preussen, 5,900 Villa Colon 65 lbs., 3,287 Gualeguaychu 63 lbs, at 6¾d. heavies, light unsold

The last news received from the River Plate speaks of large and early slaughterings, the probability being that next season's total killings will exceed those of the present one.

Tallow—

Our whole stock consisting of 234 pipes and 25 hogsheads Liebig Digester beef just discharged, has been cleared at fr. 99.

We quote—

Mutton fr. 96 to fr. 97 nominal.

Hair—

The demand has been moderate. Prices but weakly maintained.

Sales, 24 bales and 4 bags.
Stock, 458 bales and 110 bags.

The following respecting the speculation of the Union Generale in Paris and of Board of Trade seats in Chicago will be found interesting:—

"An idea of the present rage speculation in Paris may be formed from an account of the Union Generale, a bank, or rather financing company, started in 1873 by some rich Catholics. The "Catholic interest" gathered round the Union, it took Austria for its field of action, established a Land Bank in Vienna, and "financed" railways, iron mines and foundries in Bohemia and Hungary. Its business expanded so rapidly that in less than 3 years its called-up capital was raised from £250,000 to £5,000,000, while its deposits at a fixed rate reached £4,000,000 It is believed to contr l a capital of £20,000,000, and its shares have consequently gone up from £5, the paid-up value, to £85, or 17 times the original price. The London *Spectator*, commenting upon these facts, remarks:—"With such prices in the market, all industry seems tame, and, from the highest to the lowest, all are speculating; while, as in France, most enterprises can be affected by the State, the solicitations, offers and direct bribes to politicians know no limit. The politicians are crazy for quick fortunes, nearly every journal is influenced by speculators, and if a war with Timbuctoo would pay a war cry would be raised."

"The speculative fever in the Chicago grain markets has had the effect of advancing the price of seats at the Board of Trade there; $3,000 was paid for one on Saturday. At the Produce Exchange there, yesterday, three seats were sold at $2,355, and one for $2,360."

A las 3 p.m.

Remataremos a la mas alta postura y dinero de contado pasando la base arriba indicada por orden terminante de sus propietarios y por liquidacion de sociedad estos magníficos campos situados en el Partido de Bahia Blanca, y que podemos reputar sin exageracion alguna los mejores, en cuanto a pastos y aguadas permanentes de aquella localidad; campos poblados hace mas de 31 años.

**Los Manantiales**—(Plano A)

LOTE No. 1—Una suerte de estancia o sean 4 legua con frente al Naposta Grande arroyo de agua cristalina, permanente y dulce; linda por el N. Este con D. Sisto Laspiur, por el Sud, Oeste y Nor Oeste con Jorge Claraz; tiene una poblacion construida de piedra y barro con techo de fierro de 4 reales por vara cocina con techo de paja y un corral de piedra para ovejas, grande y bien situado.

LOTE No. 2—Se compone de 4½ leguas mas o menos sobre el Naposta y linda por el N. O. con los Srs C Heusser Arce y Chautini; por el N. Este con el lote num. 3, y por el S. Oeste con Cuquet, Bajo Hondo y el Estado. Tiene en el Centro del campo, la Laguna de Manantiales y el arroyito del mismo nombre; las poblaciones son: sobre el Naposta grande uno de dos piezas de material y un pequeño galpon de lo mismo; otro de dos piezas, uno de adobe crudo y la otra de piedra con un gran corral de piedra para ovejas.

La poblacion de los Manantiales se compone de tres grandes piezas de material de adobe crudo con techo de tabla y fierro; a mas dos puestos construidos con los mismos materiales que estos ultimos.

LOTE No. 3°—Lindero con el anterior y se compone de 3 leguas aproximadamente con frente tambien al Naposta y fondo hasta el Bajo Hondo; tiene tambien una laguna "Los Saladas", una poblacion sobre el arroyo de una pieza de piedra como las anteriores y dos poblaciones de adobe crudo con techo de fierro.

El total de estos campos, conocidos por los Manantiales dista dos leguas y diez cuadras desde el Esquinero Oeste a la plaza del pueblo de Bahia Blanca y su superficie total segun la reciente mensura practicada por el agrimensor D. Federico Gomez Molina, se compone de 8 leguas cuad. mas 638 cua. es.

La calidad de la tierra es en todas partes vegetal, arenosa, hasta una profundidad que varia entre media y tres cuartas vs. pero se nota de una manera bien clara la fecundidad de ella, en los parages donde ha sido removida ha brotado subitamente y en abundancia el trevol de carretilla y el alfilerillo, ambos pastos tiernos y dulces.

Aguadas—Tiene el Naposta Grande, las Lagunas, Los Manantiales y Saladas y el arroyito Los Manantiales.

Ademas, se encuentra el agua a diversa profundidad en este campo a consecuencia de los accidentes del terreno y que varia desde 1 hasta 13 metros de profundidad.

Pastos—Los pastos son mezclados, encontrandose el alfilerillo, trevol de carretilla, cola de zorro, pasto duro, flechilla, vinagrillo, té pampa, cebadilla y macachen, predominando en un 80 c/o el trevol, alfilerillo, pasto duro y cola de zorro.

Este campo es apropiado para hacienda lanar y vacuna, indistintamente, la cual se encuentra en tal estado de gordura que se necesita trabajo encontrar animales que sirvan para el consumo.

**Nueva Roma**—(Plano B)

## The Mondego's Mails

London, Nov. 28th

A daring attempt has been made in St. Petersburg to murder General Tcherevin, Chief of the Russian State Police attached to the Ministry of the Interior. His assailant, a young Polish gentleman named Nicholas Sankoffsky, obtained admittance to the office of the General, at whom he almost immediately presented a pistol and fired one shot, which passed under the arm of the intended victim, and tore away a piece of his coat. The assassin was seized by the General. It is stated that Sankoffsky was incited to the crime by an acquaintance named Melnikoff, who is also under arrest.

The Roumanian Parliament was opened yesterday by King Charles, who in the course of his speech insisted than the freedom of the Danube was an essential condition of the political and economical growth of the country.

Lord Hartington addressed his constituents at Blackburn on Saturday. After some references to the Eastern Question and Afghanistan, and to Lord Salisbury's remarks upon those topics, the noble Marquess devoted the remainder of his speech to Ireland. The origin of the present trouble he traced to the distress and the evictions which some landlords carried out at that time. As to the charge of delay made against the Government, no Government could enforce coercion unless it was supported by the great majority of opinion in Parliament and the country. The Government could not have acted sooner than it did. Its only object was to restore peace and order in Ireland, and to do this the Government would spare no labour and shrink from no responsibility. It was bound to act with unswerving purpose and also with inexhaustible patience. At the close of the meeting a vote of confidence in the Government and in the members for North East Lancashire was passed unanimously.

Sir W Harcourt, speaking at a Liberal banquet at Derby on Saturday, made a lengthy vindication of the Irish policy of the Government. Answering the charge that the Land Act was a concession to agitation, he said that if it had not been passed the state of Ireland would have been worse than now existed. He denied Lord Salisbury's assertion that the Commissioners and Assistant Commissioners were acting as executive officers under the Government, instead of in a judicial capacity, and challenged the Conservatives to say what they would have done had they been in office. He asserted that Ministers would shrink from no measure to vindicate law in Ireland; and, answering the threats of Irish vengeance at the elections, he predicted that a Tory Administration founded by the precarious aid of discomfited agitators could not command the support or sympathy of the people

A meeting of landowners and tenant farmers of Kent was held at Canterbury on Saturday, to consider the Bill of the Farmers' Alliance. After Professor Hunter had explained its provisions, Lord Brabourne made an energetic speech against the measure, and moved, as an Amendment to the Resolution approving the Bill, that, while they approved compensation being given for unexhausted improvements, the proposed Bill did not secure that principle without counterbalancing disadvantages which it was undesirable to accept. The Amendment was rejected by a large majority, and the original Motion was passed.

A severe gale sprang up suddenly on Saturday afternoon, and continued yesterday. The low-lying lands throughout the Kingdom are inundated, the piers and sea walls at many watering places have been seriously damaged, and several vessels have been driven ashore. The appliances for saving life have, however, been available wherever they have been required: and so far there has been no loss of life to chronicle. In some parts of the interior the torrents of rain which fell on Saturday night were accompanied by thunder and lightning.

Our Limerick Correspondent states that that district continues in a very disturbed state, and searches for arms are being made by the constabulary. Large rent reductions were made by the Assistant Commissioners at Ballina and Kilmallock on Saturday,

A reply to a Resolution passed at a public meeting asking for the respite of Lefroy, the Home Secretary states that he is unable to find any sufficient ground for interfering with the due course of the law.

The Dockyard church at Sheerness was almost wholly destroyed by fire on Saturday night, nothing remaining of the edifice but its walls and the stone tower. The efforts to subdue the flames were attended by serious casualties. A young man was killed by the falling of a piece of stone coping, and several other persons suffered more or less severe injuries, which in one case will, it is feared, terminate fatally.

William A.E Lonergan, lieutenant in the 66th Foot, was on Saturday brought up at the Westminster Police-court on the charge of stealing jewellery to the value of one hundred pounds, the property of Mr H. Wegnelin, of Ebury-street, Pimlico. The Prisoner, who protested that he had found the property, wrapped up in paper, outside the railings of the Prosecutor's house, was remanded.

Buoyancy prevailed in all the leading Stock Markets on Saturday. Consols advanced ⅜ for money and 5-16 for the account, to 100⅜ ½, respectively. In Home Railways, N. Eastern recovered 2, North-Western and South Eastern being 1 higher. The upward movement extended to American and Canadian Stocks. All prominent Foreign Government Securities participated in the general advance. Gold to the value of £30,000 was taken from the Bank for Montevideo.

### OUTRAGE IN THE ITALIAN PARLIAMENT

Rome, Monday.

To-day, while the Chamber of Deputies was continuing the discussion of the Estimates of the Ministry of Agriculture, some disorder was suddenly observed in the gallery reserved for the public, and immediately afterwards a revolver was thrown into the hall, while a voice called out for 'Depretis.' Happily the revolver fell into the hall without exploding or hurting anyone. It fell close to the bench set apart for committees. By order of the President the individual who threw it was at once arrested, and the house resumed the debate. A vote on the estimates having shown that there was no quorum present, the President closed the sitting after a few observations, strongly censuring the deputies who were absent from their places. The man who threw the revolver is named Maccaluso. It appears that he was actuated by purely personal motives. Maccaeluso was born at Arzona, in Sicily, and is about thirty years of age. He has already suffered imprisonment for wounding with intent to murder, and is still under police supervision. It is said that he presented himself at the police station this morning and asked to be watched during the day, stating that otherwise he should commit some excess. It appears his intention was to shoot Signor Depretis, and that being prevented from doing so by the bystanders he flung the revolver at the Premier.

### STATE OF LIMA

The social and moral condition of the capital appears to be worse now than at any period of the country's history. Every day accounts of atrocious murders and assassinations are conveyed to Chilian headquarters: but as there are no police, no effort worthy of the name can be made to prevent the recurrence of such atrocities or punish those who are known to be guilty. Occasionally a patrol of Chilian soldiers pursues a band of malefactors or finds them in the actual commission of crime. A short shrift is accorded to criminals under these circumstances. A court-martial decides their fate, and it must be said the soldiers are never unwilling to carry out its mandates. Murderers are shot; thieves are whipped on the church steps. Yet in the case of the former a great clamor is occasionally raised that the people shot were innocent, and the Chilians are represented as bloodthirsty monosters charged with the task of decimating Peru's fast disappearing population. A band of ten Montoneros was found recently near Lima. They resisted capture by the soldiers, but were taken, and a brick-kiln which had served them as a bulwark against the attack of the soldiers remains as a monument over their last resting place. Peruvians say, however, that the slain were innocent labourers who were engaged at labour in the brick-kiln, and who thought the Chilian soldiers were Montoneros; hence their resistance.

Notwithstanding the promises of the Chilians that everything would be done to stimulate commercial interests and protect the private rights of those not compromised in the struggle, many complaints are heard from business men in Lima of the exactions and annoyances suffered in entering and clearing invoices at the Callao Custom-House; also of the insecurity of life and property in the capital. The practical abolition of the Provisional Government and the seizure of the treasury by Admiral Lynch leave in Chilian hands entirely the government of all the territory occupied by their forces. But they neither organize a police force themselves, nor will they permit the municipalities to do so. Neither will they sanction the formation of a foreign urban guard, paid and regularly enlisted, to which the safety of the city might well be entrusted. These are matters of constant complaint, which if not rectified must lead to diplomatic action, while the moral effect is decidedly adverse to the Chilians. Admiral Lynch's decree practically dissolving the Calderon government has been the subject of much correspondence. Garcia Calderon, of course, protested. He avefred that his government was called into existence by the leading citizens of Lima and Callao and now commands the confidence of all residents of those portions of the republic where an expression of free opinion was allowed; that it was confirmed and the term of office extended by the Constitutional Congress and that, consequently, Senor Calderon could not resign his position at the simple order of the Chilian commander-in-chief, but must return the power conferred upon him to those conferring it. Senor Calderon asserted that his Administration had met with the official recognition of Chile on several occasions, notably when the negotiations for peace were entered upon with him by the Chilian Commissioner; but that it is apparent that from the moment his opposition to the cession of territory was made known, the Government of Chile decided on his overthrow. This determination regarding the proposed dismemberment of Peru is the result of much reflection; for apart from the unanimous will of the republic that no such stipulation should be agreed to, Senor Calderon holds the opinion that territorial cession would only insure perpetual war between the two nations interested. He asserts his ability to pay a reasonable war indemnity, to be fixed by arbitration, or by common consent, and is persuaded that eventually peace will be concluded between the two countries without the necessity of ceding any of the territorial possessions of Peru. He also cites the fact that his government has been recognized by several foreign nations, and that he should naturally have the power to carry out contracts entered upon with citizens and subjects of those countries.

Dr. J. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
